ECO SERIES

Push-Around Scissor Lifts

Innovative solutions to low-level working at height

Pop-Up is the world leader in the development of push-around scissor lifts, which provide a cost-effective new way to safely work at height indoors. Designed for low-level access, **Pop-Up *ECO*** series are versatile, easy to use machines, which are great value for money.

▶ Low acquisition cost

▶ Lightweight and compact

▶ Simple to use; easy to maintain

▶ Easily passes through a standard doorway

▶ Working heights of 3.6m and 4.5m

▶ Proven benefits over stepladders, scaffold towers and podium steps:
  • better job site productivity
  • safer and more convenient working conditions
  • better return on investment (ROI) for rental/hire companies

POP UP®

Push Around Scissor Lifts

ECO SERIES

Dimensions	ECO6	ECO8
Max. working height	3.6m	4.5m
Max. platform height	1.6m	2.5m
Platform capacity (SWL)	240kg	240kg
Overall width	0.7m	0.7m
Overall length	1.13m	1.2m
Stowed height	1.64m	1.8m

Performance		
Max. wind speed	0m/s	0m/s
Raise/lower time	8 sec	24/25 sec

Power	
Power source	12 volt DC batteries
Charger	Integrated onboard charger, 90V - 240V

| Weight		
Gross weight	235kg	343kg

ACCESSORIES

Buffer Wheel Kit

Designed for the "final fix" stage of construction projects, the resilient rubber wheels help prevent the Pop-Up from contacting and damaging interior surfaces. Attached above the castors, the buffer wheels quickly rotate when the Pop-Up comes into contact with any surface and gently push away the machine.

Confined Space Handrail

Developed in partnership with major global contractors, the confined space handrail is the perfect solution for accessing hard to reach areas, such as ceiling voids. The design, which fits onto any Pop-Up without the need for modification, allows the cage and a single operator to access a void above a ceiling through a standard ceiling grid.
